**CONTINUED LEGAL DESCRIPTION FOR PROPERTY ON WHICH WATER IS TO BE USED**

---

The place of use (POU) of this water right is shown on the map in Attachment A. The metes and bounds description provided in Attachment B is intended to match the boundary as depicted on the map in Attachment A. All dimensions were taken from surveyed or identified boundaries on the Priest Rapids Project 1955 FERC License No. 2114; Priest Rapids Exhibit K Sheets 14 and 15 and Wanapum Exhibit K sheets 1 and 2. RCW 90.03.386 may have the effect of revising the place of use of this water right if criteria in section RCW 90.03.386(2) are met.

---

**PROVISIONS**

---

All conditions and requirements contained in reports of examination or permits previously issued apply to this superseding certificate unless specifically noted below.

Any replacement or additional wells drilled under this water right must tap an aquifer that is hydraulically connected to the Columbia River.

Replacement or additional wells drilled under RCW 90.44.100(3) may only be located within the South ¾ Section 16, or Section 17, or North ¾ Section 21, all in Township 16 North, Range 23 East, W.M.

A water well report and document confirming compliance with RCW 90.44.100(3) shall be filed with Ecology for any additional or replacement well drilled within the point of withdrawal location identified in the preceding provision.

An approved measuring device shall be installed and maintained for each of the sources authorized by this water right in accordance with the rule "Requirements for Measuring and Reporting Water Use", Chapter 173-173 WAC. <http://www.ecy.wa.gov/programs/wr/measuringhome.html>

Provisions continued on Page 3

The right to use of the water aforesaid hereby confirmed is restricted to the lands or place of use herein described, except as provided in RCW 90.03.380, 90.03.390, and 90.44.100.

*Given under my hand and the seal of this office at Spokane, Washington,  
this 19<sup>th</sup> day of April, 2012.*

ECY 040-1-2 (Rev. 8-97)

Ted Sturdevant, Director  
Department of Ecology

By   *Keith L. Stoffel*    
Keith L. Stoffel, Section Manager

Superseding Certificate

Provisions continued from Page 2

Water use data shall be recorded weekly and maintained by the water right holder. The maximum rate of diversion/withdrawal and the annual total volume shall be submitted to the Department of Ecology by January 31<sup>st</sup> of each calendar year. The first submittal shall be required after a full year of metering data has been recorded following final approval of the Report of Examination.

Recorded water use data shall be submitted via the internet. To set up an internet reporting account, contact the Office of the Columbia River. If you do not have internet access, you can still submit hard copies by contacting the Office of the Columbia River for forms to submit your water use data.

WAC 173-173 describes the requirements for data accuracy, device installation and operation, and information reporting. It also allows a water user to petition the Department of Ecology for modifications to some of the requirements.

If the criteria in RCW 90.03.386(2) are not met and a Water System Plan/Small Water System Management Program was approved after September 9, 2003, the place of use of this water right reverts to the service area described in that document. If the criteria in RCW 90.03.386(2) are not met and no Water System Plan/Small Water System Management Program has been approved after September 9, 2003, the place of use reverts to the last place of use described by Ecology in a water right authorization.

Department of Ecology personnel, upon presentation of proper credentials, shall have access at reasonable times, to the project location and to inspect at reasonable times, records of water use, wells, diversions, measuring devices and associated distribution systems for compliance with water law.

The water source and/or water transmission facilities are not wholly located upon land owned by the applicant. Issuance of a water right change authorization by this department does not convey a right of access to, or other right to use, land which the applicant does not legally possess. Obtaining such a right is a private matter between applicant and owner of that land.

This authorization to make use of public waters of the State is subject to existing rights, including any existing rights held by the United States for the benefit of Indians under treaty or otherwise.
